

HONG KONG SCIENCE AND TECHNOLOGY PARKS CORPORATION

Open Application for Admission for the Leasing of Microelectronics Centre at 1 Fuk Wang Street, Yuen Long Industrial Estate (Ref: MEC/L001)

Hong Kong Science and Technology Parks Corporation (“HKSTP”) is developing the Microelectronics Centre (“MEC”) in the Yuen Long InnoPark to provide the industry with the necessary dedicated facilities and shared ancillary facilities for the development, testing, trial production/prototype production of microelectronic products, such as third-generation semiconductors and advance packaging (3D IC) and other semiconductor products, etc.

The MEC is estimated to be ready for commencement of operations in the second half of 2024, and will provide over 36,000 square meters of gross floor area to support and promote the development of the microelectronics industry in Hong Kong.

MEC is aiming to capture the advanced semiconductor opportunities with pilot scale production by providing ready to use (i) lightweight workshops and (ii) pre-fabricated cleanrooms with (a) Ultra-pure DI water, (b) dangerous goods store, (c) piping, and (d) waste treatment facilities, and additional space for tenants’ Mechanical, Electrical and Plumbing (“MEP”) for other special systems; and providing shared Quality Control and Reliability laboratory (“QCR Lab”).

Interested companies should submit their duly completed proposal to HKSTP in accordance with the Admission Application Guideline, a copy of which can be provided upon request by email (mec@hkstp.org).
